- The origins of Sagsa -

---

\* The furniture of Sagsa produced during the 30's inspired by the Bauhaus school

# 1932 line

## The 1932 line, the elegant touch.

The 1932 line is only manufactured with the best materials in Milan: chromed tubes for all the furniture, made from high quality steel, and with high quality leather for the chairs.

With its elegant, simple and timeless design, this is a «must have» for every interior.

# Parasta line

# Parasta line

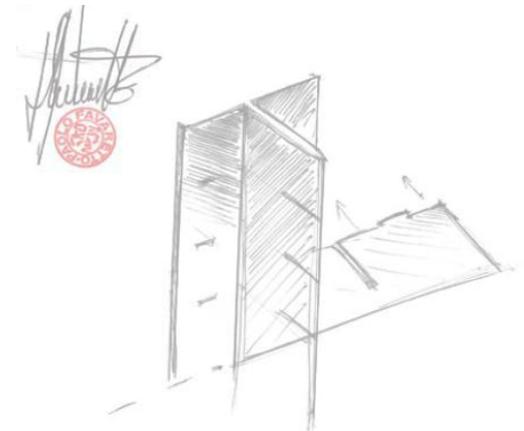

**The Parasta line, the dynamic and smart shelving system.**

Parasta bookcase is an original Favaretto design. Its design finds its inspiration in the architecture of the renaissance what gives to this furniture its unique shape and self standing structure.

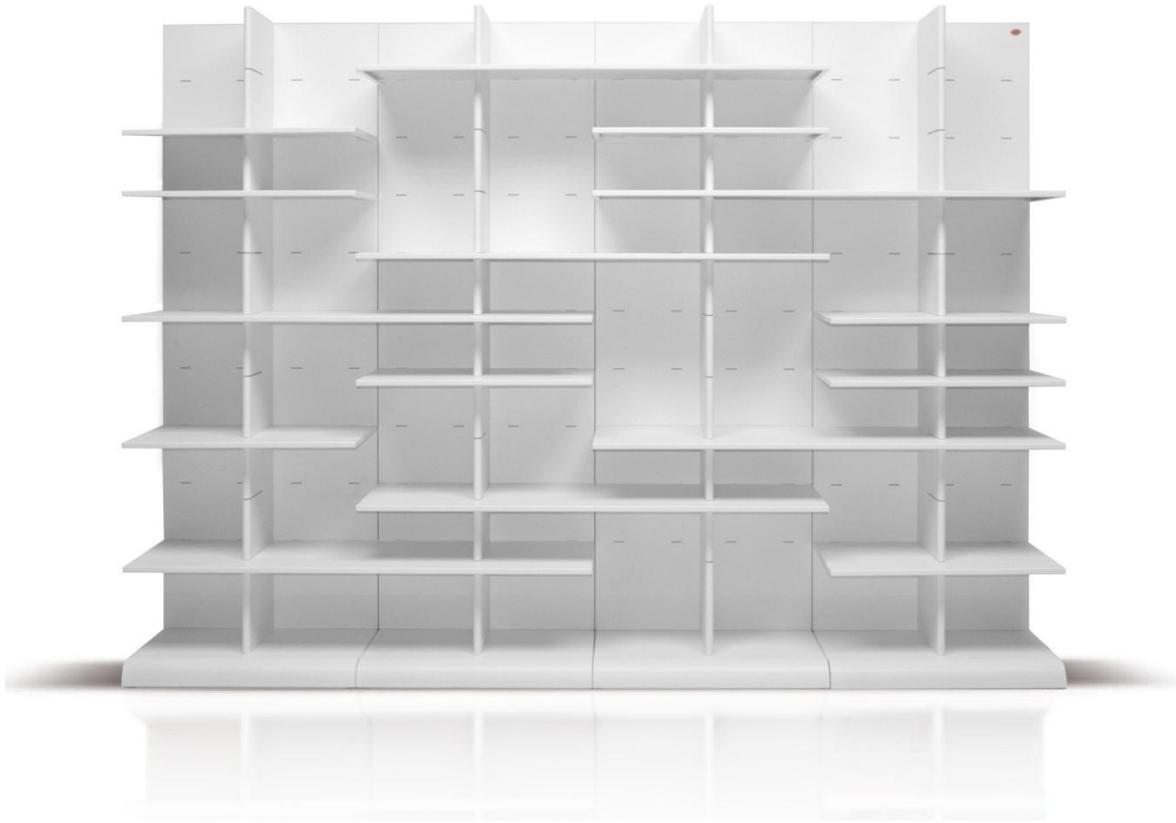

Its beauty and rationality comes from its simplicity and from its material too, the steel, which contributes to its strength and to its pure lines.

The flexibility of solutions of Parasta allow to change from a simple bookcase to a single or multiple display partition. It is up to you to decide of its configuration.
