

# archiviazione

Su tutti i ripiani è possibile applicare pratici reggilibri e separatori in metallo verniciato. All shelves can be fitted with steel vertical dividers and bookends.

I cassetti dei classificatori orizzontali sono dotati di guide telescopiche e supporti per sospendere le cartelle portadocumenti. Filing cabinets feature drawers on telescopic rails with filing bars for suspended files.

Le cartelle portadocumenti nel pratico formato A4. A4 suspended files.

Sagsa filing cabinets of the ARCHIVIAZIONE range are made of high quality 8/10 and 9/10 gauge cold rolled, powder coated steel.

They are supplied with shelves made of 9/10 gauge steel, and can be adjusted with 25 mm increments, with under-shelf suspension filing.

Pull-out frames on telescopic rails designed to accommodate files and computer printouts can also be supplied.

Doors can be of the hinged or sliding variety (8 or 9/10 and 9/10 gauge) with an inbuilt door handle.

Glass door in thickness 6 mm can also be supplied.

All doors are fitted with lock and a set of 2, numbered keys. Levelling feet can be supplied to counterbalance uneven flooring.

80 years of proven experience, make SAGSA's cabinets a high quality and stylish product, flexible enough to fit into any environment.

Filing cabinets with 2,3 or 4 drawers are also available in the ARCHIVIAZIONE range, with same colours and finish, making it possible for them to fit into any type of environment.

They feature fully extending drawers on telescopic rails and anti-tilt device.

Standard colours are light grey and dark raven grey, but all RAL colours can be supplied.

I contenitori per archiviazione Sagsa sono costruiti interamente in lamiera laminata a freddo di prima scelta 8/10 e 9/10 con verniciatura epossidica semilucida, dopo un trattamento di passivazione e fosfatizzazione. Sono dotati di ripiani interni in lamiera 9/10 disposti su cremagliera con spostamento verticale con passo 25 mm, già predisposti per sorreggere cartelle sospese e tabulati mediante telai estraibili montati su guide telescopiche.

Le ante possono essere a battenti in lamiera 8/10 e 9/10 oppure scorrevoli in lamiera 8/10. La maniglia è ricavata nell'anta stessa.

Possono essere anche a vetro trasparente spessore mm 6. Tutte le ante sono dotate di serratura e chiave in duplice esemplare. È possibile inserire un piede di regolazione per mettere in piano i contenitori e superare le irregolarità dei pavimenti.

La solida costruzione, provata da oltre 80 anni di esperienza, fa dell'armadio Sagsa non un semplice contenitore di archiviazione, ma un mobile inseribile in qualsiasi ambiente con design e gusto.

Pratici piedini regolabili sono posizionati sotto a tutti i contenitori. All storage units are provided with practical levelling feet.

I classificatori verticali a 2, 3 o 4 cassetti si inseriscono nella linea di archiviazione con medesimi design e finiture, che li rendono adatti a qualsiasi ambiente.

Sono dotati di cassetti scorrevoli su guide telescopiche a totale estrazione e antiribaltamento.

I colori standard disponibili sono canna di fucile e grigio, ma è possibile realizzarli in qualsiasi colore RAL.
